## Web Designer and Developer

My design goal is to keep form and function simplified with care and thought for every project. I specialize in responsive front-end web development and customized user-centered designs with HTML, CSS, and jQuery. I love crafting themes for WordPress and Joomla, creating layouts with valid and semantic markup, and I am passionate about good UI/UX design. I am always interested in current web trends and tools to integrate with my workflow and sharing my varied interests especially about web technologies.

## CORE COMPETENCIES

- Responsive/Mobile Web Design
- UI/UX Design
- HTML5, CSS3
- JavaScript, jQuery integration
- Content Management Systems (CMS)
- WordPress, Joomla - PHP-based CMS
- Liferay - Java-based Portal
- Templates, Layout Design with Photoshop

### Other Technical Skills:

I am a Microsoft Windows and Linux systems user. I am able to work with GIT, command line, Tomcat, and Glassfish environments. I manage a personal VPS and can use WebHost Manager, Cpanel, and phpmyadmin.

## PROFESSIONAL EXPERIENCE

### User Experience (UX) Engineer - Contractor

*Keycafe Inc., Canada: April 2014 - present*

I am responsible for the company's front-end and user experience designs. I build layouts and implement them in HTML5/CSS3. I work with different client and server side technologies like jQuery, Groovy and Grails.

### Senior Front-end Web Developer

*Orange & Bronze Software Labs, Inc. , Philippines : 2009 - 2014*

I was closely involved in project planning and support, designing interfaces, and developing websites. I worked in collaboration with different teams of designers and developers in projects for clients and for the company. I also conducted internal learning sessions and talks.

### **Odesk Freelance Web Designer and Developer**

*Worked with clients from Australia, United Kingdom, and USA: 2008 - 2009*

I worked on various projects - online shops, web applications, and corporate websites. I also designed user interfaces, WordPress themes, banners, and graphics. As a freelancer, I worked on personal marketing, sales, accounting, and project management.

### **Senior Front-end Web Developer**

*OSRP LLC, Philippines: 2007 - 2008*

I oversaw front-end web development matters including HTML/CSS markup and graphics for company websites particularly <http://www.macmall.com/>. I worked closely with the Marketing Department designers and the IT Department developers, assisting both on design and front-end requirements and issues.

### **Web Designer**

*Eversun Software Philippines Corporation: 2006 - 2007*

I designed websites, created graphics, and developed applications. I assisted clients on any matter regarding the projects - from design and development to editing and management.

## **☼ VOLUNTEER WORK**

### **Ladies Learning Code (Saskatoon)**

Event Mentor for WordPress for Beginners - 24 January 2015

Event Mentor for Mobile Responsive Web Design - 29 March 2014

### **Interpreter/Translator for Saskatoon Open Door Society** - December 2014 - present

I translate documents from English to Filipino (Tagalog) as needed by the organization

### **Global Gathering Place (Saskatoon)** - August 2014 - September 2014

I volunteered as an assistant on basic computer classes offered by the organization.

### **Google Devfest for Women 2013, GBG Philippines Community** - 9 March 2013

I gave a talk about basic HTML5 for designers focusing on markup, semantics, and new tools.

## **☼ EDUCATION**

### **B.S. Computer Science** - University of the Philippines, Diliman (2005)

Quezon City, Metro Manila, Philippines
